

50L2300U LED HD TV

TOSHIBA
Leading Innovation >>>

MODERN DESIGN. PROVEN TECHNOLOGIES. FULLY LOADED.

The Toshiba 50" class L2300U is an extra-large television that's also big on design, featuring an all-new look with a modern and elegant gun metal finish, curved cornered display and sleek stand. This 1080p Full HD, incredibly slim, energy-efficient LED TV is also equipped with all the entertainment and gaming features you need. ClearScan® 120Hz doubles the refresh rate for clearer fast motion video, while Dynamic Picture Mode offers maximum contrast, clarity and color saturation. It offers a full set of connections including three HDMI® inputs, while its Game Mode and Game Timer technologies make the most of your gaming options. Although everything about the L2300U is big, the competitive price makes it surprisingly attainable.

All-new, modern curved corner design with an elegant gun metal finish and sleek stand

CS120Hz

1. While every effort has been made at the time of publication to ensure the accuracy of the information provided herein, product specifications, configurations, system/component/options availability are subject to change without notice. 2. 1080p/24 fps encoded content and an HD display capable of accepting a 1080p/24Hz signal required for viewing 1080p/24 fps content. 3. Use of HDMI[®] CEC requires an HDMI[®] CEC compatible display/peripheral device. Depending on the specifications of your device, some or all HDMI[®] CEC functions may not work even if your display/peripheral device is HDMI[®] CEC compatible. 4. If you decide to wall mount your Toshiba television, always use a UL Listed wall bracket appropriate for the size and weight of the television. Care should be taken to place or install the display where it cannot be pushed, pulled over, or knocked down.
