**Toshiba Debuts HVAC Product Line at the 2017 Air-Conditioning, Heating, & Refrigeration Exposition**

**HOUSTON, TX — Jan. 30, 2017** — Toshiba International Corporation (TIC) will launch a series of new motors and adjustable speed drives (ASDs) for the 2017 Air-Conditioning, Heating, & Refrigeration (AHR) Exposition taking place January 30<sup>th</sup> through February 1<sup>st</sup> at the Las Vegas Convention Center in Las Vegas, Nevada. Stop by Toshiba booth #C5140 for free coffee and the opportunity to learn about the newest motor and adjustable speed drive technology for HVAC applications.

Toshiba will display a refreshed lineup of state-of-the-art motors from its renowned EQP Global® and its new Tosh-ECO™ lines as well as completely new drive systems. New products on display at the AHR Exposition include:

- **Cooling Tower Motor:** Low voltage motor rated for severe duty & designed for wet/humid environments; available in ¾ to 75 horsepower (HP)
- **Global IEC Motor:** Low voltage motor with IEC efficiency levels and interchangeable flange options (B5/B35 and B14/34); available in ¾ to 45 kW
- **Permanent Magnet Motor:** Low voltage motor that meets IE4 and “Super Premium” efficiency levels and features two ground provisions; available in 0.55 to 315 kW
- **EQP Global HVAC Motor:** Low voltage motor equipped with double-sealed insulated ceramic bearings for multi-speed fan array, tunnel ventilation, & air handling; available in 1 to 20 HP
- **Q11™ ASD:** Self-calibrating HVAC ASD with Virtual Linear Pump® (VLP) technology for advanced controls to maintain pressure, level, or flow for maximum efficiency
- **AS3 ASD:** All-purpose ASD with built-in Industrial Internet of Things (IIoT) communications suitable for HVAC applications

**About Toshiba International Corporation**

TIC is a Toshiba America Inc. (TAI) Group Company, a wholly owned subsidiary of Toshiba Corporation. TIC is headquartered in Houston, Texas and employs approximately 1,200 people. TIC provides application solutions to a wide range of industries including industrial, power electronic, and

transmission and distribution systems. For more information about TIC, please visit [www.toshiba.com/tic](http://www.toshiba.com/tic).

**About the TIC Motors & Drives Division**

The TIC Motors & Drives division, which offers a full range of motors, adjustable speed drives, and motor controls, is anchored by a totally integrated manufacturing process; research and development, design, engineering, production and manufacturing, and after-market service and support are all commandeered under one single roof. With the capability to test products together as a complete system before sending out into the field, TIC ensures the highest level of quality, performance, and reliability.
